

MOBA Laser Product Line Overview

Pipe Lasers

INSPIRING MOBILE AUTOMATION
SINCE 1972

THE WORLD'S MOST ACCURATE PIPELAYING LASER

PIPEGUIDE LS.140G

The Pipeguide LS.140G features one of the largest grade ranges of any pipelaser for fast and accurate pipelaying in all conditions. Pipeguide is 100% waterproof, made from machined aluminium and comes in 2 different models to suit your particular needs.

- + High power GREEN laser beam with exceptional visibility
- + Impressive grade range (-20% to +35%)
- + Remote control for out of trench adjustments
- + Battery saving 'standby mode' via IR remote
- + Machined all-metal body

SOLID-BUILT AND DEPENDABLE

Thanks to years of development and market experience, our range of high quality pipelasers allow our customers worldwide to benefit from our advanced technology. With both high powered red and green beam technology you can be sure our range will guide you with precision over long distances.

EASY TO OPERATE

Extremely easy to operate, the MOBA range of pipelasers offers contractors a simple interface to perform on the most demanding jobsites.

MAXIMUM ACCURACY

No matter the environmental conditions or situation you can depend on the MOBA range of pipelasers to reduce re-work.

DESIGNED TO PERFORM AND OUTLAST

Our robust pipelasers are engineered for ease-of-use and packed full of well-known and beneficial features. Encased in a machined aluminium housing you can be sure the MOBA range of pipelasers will last you a lifetime.

Grade Lasers

INSPIRING MOBILE AUTOMATION
SINCE 1972

PREMIER DUAL GRADE LASER

LASERGRADER LS.230E

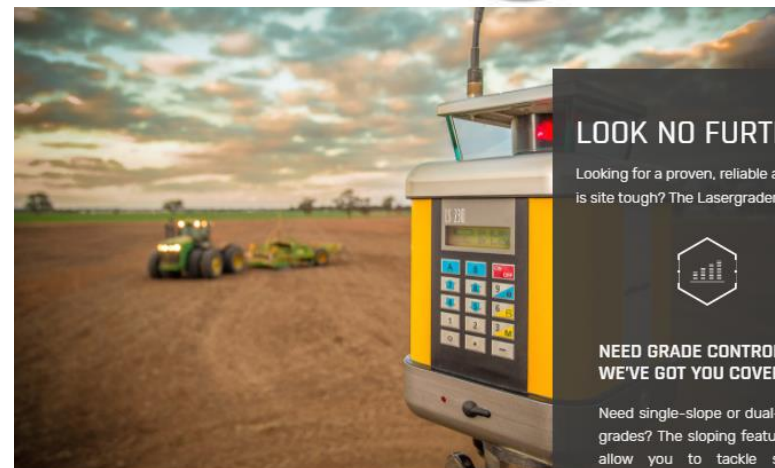

The Lasergrader is a premier dual grade laser with exceptional and user-proven performance. Designed and built in Australia, the Lasergrader comes inbuilt with over 35 years of experience in local earthmoving industry.

The optional full function remote control allows you to control the laser unit via a radio remote. The remote may be used to display or change grade from a distance of up to 700 metres.

- + Input the grade directly using the switch pad or in increments using the arrow keys.
- + Battery can be charged while laser is in use, from 240 V AC or 12-24 V DC power source.
- + Two grade display modes - display the grade either as a percentage or a ratio.
- + Automatic warnings for service required, low battery, self-levelling limit and level.
- + Elevation alert to notify the operator if the laser is accidentally moved.

LOOK NO FURTHER

Looking for a proven, reliable and robust dual grade laser? A laser you can count on to increase efficiency? A laser that is site tough? The Lasergrader LS.230E by MOBA meets all of your job site needs, from layout to grade control.

NEED GRADE CONTROL? WE'VE GOT YOU COVERED!

Need single-slope or dual-slope grades? The sloping feature will allow you to tackle sloped trenches for sewer, or final grade on areas with mild slopes for drainage and land levelling.

DECADES OF EXPERIENCE!

MOBA lasers use the latest advancements in high-quality optoelectronics which keep our products working smarter not harder and in-turn give you the best possible product for your dollar. We've been part of your industry for decades, and what we've learned over that time allows you to do your job in seconds.

TRIED THE REST NOW IT'S TIME FOR THE BEST!

Are you fed up with difficult-to-handle devices which are over complicated? All Lasergrader lasers self-level accurately every time at a simple push of a button. The large LCD lets you enter the required grade easily ensuring you never make a mistake again.

Laser Levels

INSPIRING MOBILE AUTOMATION
SINCE 1972

DESIGNED FOR HARSH OPERATING ENVIRONMENTS

ROTEC LS.RH LASER LEVEL

Rotec LS.RH is an automatic horizontal self-levelling laser level designed and built for harshest of construction sites.

- + Tough - high quality impact resistant housing and aluminum lighthouse protector for harsh operating environments.
- + Fast - high visibility red laser beam for quick and easy markups
- + Set & Forget - just set the laser and let it do the rest, knowing you'll get precision readings every time.
